

Ingersoll Rand Quality Policy

Ingersoll Rand is committed to establishing and maintaining a Quality Management System to:

- Understand and satisfy our customers' needs and support sustainable growth by delivering innovative, high quality products and services.
- Improve our quality culture by defining the needs of our interested parties, evaluating risks, and actively demonstrating continual Quality improvement throughout the entire value chain
- Build a continual improvement quality culture utilizing process-based management that builds a framework to achieve quality objectives, strengthen employee engagement, and satisfy customer requirement.
